

Edwin Alejandro Castillo Arroyo

✉ edalejandro228@gmail.com 📞 3321803489 📍 Guadalajara, Jalisco, Mexico

Profile

My main skill is Java programming language. Additionally, I have a strong interest in both cybersecurity and software development. I am passionate about exploring the creation of robust and secure technological solutions, and I enjoy staying updated on the best practices and latest trends in these areas. I am excited to apply my Java knowledge and development skills in projects that involve both cybersecurity and software development.

Education

High School Aug 2019 - Aug 2022
CECyTEJ, Tlajomulco
I studied a technical career focused in programming, and I have a degree as Software Developer Technician.

Employment

Software Trainee Aug 2022 - Present
Page Consulting
In this position, I am in charge of supporting the realization of projects using mainly Spring boot for the creation of API's and Angular for interface development. Also recently with the support of my team I participated in a Hackathon.

Certificates

Lania Sep 2022
I took this bootcamp with a period from September 2022 to January 2023 with an average of 270 hours, where I saw technology things such as programming, design patterns, interface development and software engineering.

I consent to the processing of my personal data for the purpose of recruitment for the position to which I am applying.
